

Remote I/O Termination Kits

All of the necessary parts and tools to install the proper type of connectors on RG-6 and RG-11 Quad shield coaxial cables.

Each kit includes: stripper, insertion tool, compression tool, wrench, and the proper connectors.

Also included, is a detailed instruction sheet with photographs to assist in the installation process and training new personnel in the proper techniques to use.

There are three kits from which to choose:

The **RG-6** kit has the equipment to install and terminate Quad shield coaxial cables with the proper connectors required with relatively small Modicon remote I/O systems and drop cables.

The **RG-11** kit has the equipment to install and terminate Quad shield coaxial cables with the proper connectors required typically with large Modicon remote I/O systems' trunk cables.

The **Combination** kit has the equipment to install and terminate Quad shield coaxial cables with the proper connectors for all Modicon remote I/O systems' cables.

The RG-6 Kit, Part number **DA-RIO6-KIT**, priced at: \$ 275.00 each.

The RG-11 Kit, Part number, **DA-RIO1-KIT**, priced at: \$ 361.00 each.

The Combination Kit, Part number, **DA-RIOC-KIT**, priced at: \$ 518.00 each.
